

# CARAVEL

---

„CARAVEL transports you to a time when guitar riffs dominated the stages and shaped the soundtrack of an unforgettable era.“

# CARAVEL

Founded in 2021 in the UNESCO City of Music, Mannheim, the five-piece formation CARAVEL has rapidly emerged as a standout act in the modern rock scene. At the heart of their sound is charismatic frontwoman Chiara Kilchling: with a voice that effortlessly transitions between smoky intensity and crystal-clear melodies, she lends an unmistakable identity to the band's driving riffs. CARAVEL bridges the gap between nostalgic rock spirit and modern production —authentic and high-energy.

With their YouTube Live Session of Led Zeppelin's "No Quarter," the band has now amassed over 700,000 views. This success has garnered CARAVEL international attention and a growing fanbase reaching far beyond the borders of Europe.

Following the pathfinding debut EP "RENAISSANCE" in November 2024, which laid the foundation for their signature sound, the release of their first full-length album is set for 2026.

CARAVEL are not here to chase trends – they create their own.
