

CARAVEL

Modern-Vintage Rock from Mannheim

„CARAVEL takes you back to a time when guitar riffs conquered the stages and shaped the sound of an unforgettable era.“

CARAVEL

Founded in 2021 at the Pop Academy in Mannheim, the five-member band CARAVEL has rapidly become a rising star in the modern rock scene. At the heart of their sound is the charismatic frontwoman Chiara Kilchling: with a voice that effortlessly moves between smoky intensity and crystal-clear melodies, she lends the infectious riffs a distinctive identity. CARAVEL bridges the gap between nostalgic rock spirit and modern production – authentic and energetic.

The band's YouTube live session of Led Zeppelin's "No Quarter" has garnered over 1,000,000 views. This success has brought CARAVEL international attention and a growing fanbase far beyond the borders of Europe.

Following their groundbreaking debut EP "RENAISSANCE" in November 2024, which laid the foundation for their sound, the band plans to release their first full-length album, "EMPTY SHELLS," in 2026.

"CARAVEL are not here to follow trends - they create their own."
